InterContinental Bordeaux Le Grand Hotel Bordeaux

Category: Lodging establishments

Year: 2015

Brand: joro

Functions: Fire protection, sound insulation

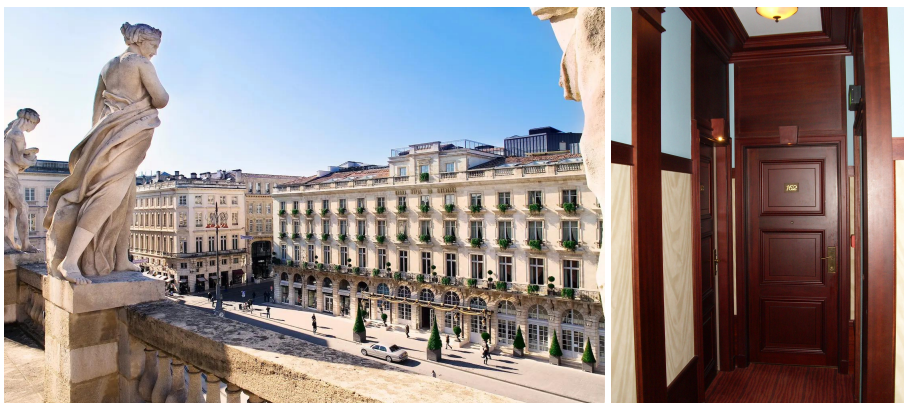

The order included the supply and installation of a comprehensive door concept that met both functional and aesthetic requirements.

About the project

This included 150 room entrance doors, which were versions of T30 fire protection doors with an integrated sound insulation function ($R_w, P = 42 \text{ dB}$) and built-in closer. These were supplemented by 400 bathroom, WC and side doors, which were also part of the project.

Different doors with impressive levels of up to 3 meters were also produced for the public range. These doors were characterized by their high-quality leather coverings and stylish metal applications, which created an exclusive and elegant ambience. This comprehensive door concept junctioned high technical standards with sophisticated design and contributed to the special atmosphere of the building.

Products

Functional doors

Functional doors must not only be technically and technically convincing: they must also integrate aesthetically into a room design. From fire, smoke, sound and burglary protection doors to damp-proof and climate-stable doors, we offer you doors that meet both requirements.

Interior doors

Interior doors are more than just passages: they emboss the atmosphere of a room. We offer you a complete range of interior doors and casings - made of wood, glass, steel, CPL, HPL and for a wide variety of styles.
