Clarion Kongress Hotel Prag

Category: Lodging establishments

Year: 2021

Brand: LIGNIS

As part of a major project with a total of 546 hotel rooms, 1,786 doors were delivered and installed on location. The highest requirements in terms of functionality and design were met.

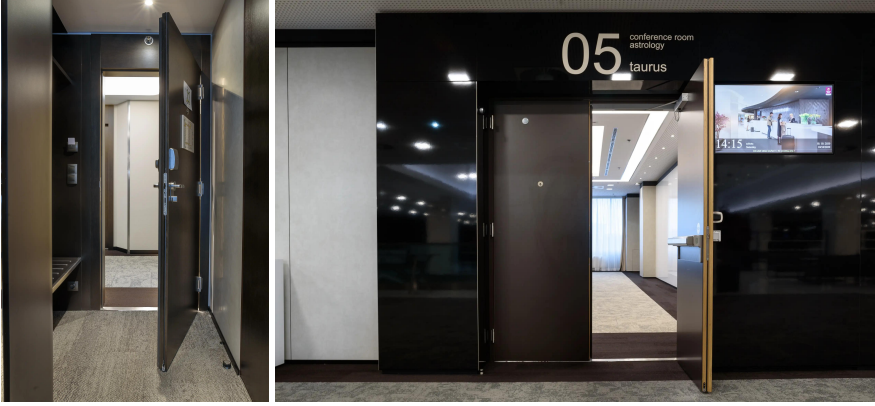

About the project

Special features of the project were the high-quality entrance doors with a sound insulation value of $R_w = 42$ dB, which ensured optimum noise insulation. The bathroom doors were versions with covered frames, which ensured a modern and seamless look.

Special solutions for panic and fire doors were developed for the congress areas and public spaces, which optimally combined both security and design requirements.

Functional doors

Functional doors must not only be technically and technically convincing: they must also integrate aesthetically into a room design. From fire, smoke, sound and burglary protection doors to damp-proof and climate-stable doors, we offer you doors that meet both requirements.
