Julius Meinl Hotel Prag

Category: Lodging establishments

Year: 2022

Brand: LIGNIS

A total of 530 doors were delivered and installed on location as part of a project for a 5-star hotel in the center of Prague with 168 rooms. The doors met the highest standards of functionality and design.

About the project

Particularly noteworthy are the entrance doors, which were integrated into a wood casing and have both acoustical and fire-proof characteristics for 30 minutes. The majority of the doors were versioned with veneer surfaces, allowing them to blend harmoniously into the luxurious ambience of the hotel. The delivery included doors for both the hotel rooms and the public ranges.

Products

Functional doors

Functional doors must not only be technically and technically convincing: they must also integrate aesthetically into a room design. From fire, smoke, sound and burglary protection doors to damp-proof and climate-stable doors, we offer you doors that meet both requirements.

Interior doors

Interior doors are more than just passages: they emboss the atmosphere of a room. We offer you a complete range of interior doors and casings - made of wood, glass, steel, CPL, HPL and for a wide variety of styles.
