Category: Public buildings

Year: 2023

Type: New building

Brand: RWD Schlatter

Site manager: Martin Lenz AG

Building promoter: Stiftung Natur- & Tierpark Goldau

Architect: marty architektur ag

What could be better suited to the backdrop of rocks, forest and wildlife than sustainable wooden doors from our production?

We are delighted to have supplied a total of 61 doors for a wide range of applications: Sound, smoke, fire, thermal and climate protection doors as well as escape route and design doors. Some of these are fitted with a high-quality spruce veneer that blends in particularly well with the natural surroundings.

The Goldau Nature and Animal Park is home to over 100 native and European wild animal species, e.g. bears, lynxes and wolves. A great park in beautiful surroundings.
