Hotel Ruby Mimi

Category: Hotel

Year: 2021

Type: Restoration

Brand: RWD Schlatter

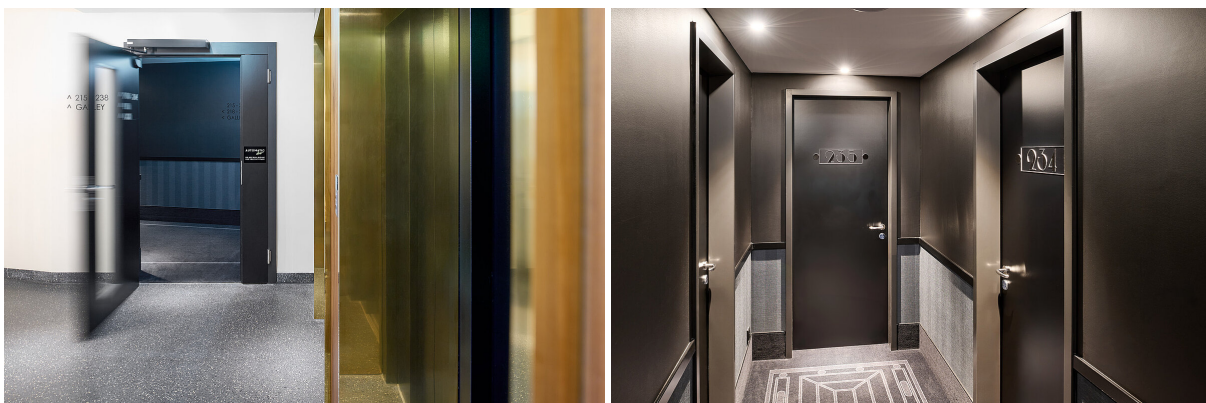

Building promoter: PSP Swiss Properties AG

Architect: Monoplan AG

We used different door solutions at the Ruby Mimi Hotel Zurich. The aim was to combine security, convenience and design in this hotel project. We delivered a total of 300 doors for hotel rooms and the staircase. These include designer room doors, smoke and fire protection doors, escape route doors, soundproof doors and the steel frames consistent with them.

The two-tone hotel room doors are a particular eye-catcher: white on the inside, anthracite on the outside. In combination with two-tone steel frames, the result is a solution that is both optical and fulfils high security and resistance requirements.
