---

The 5-star Dorint Maison Messmer hotel in Baden-Baden combines elegant hotel tradition, sophisticated rooms and exclusive conference areas - we supplied customised high-speed door systems that combine quality, functionality and luxury in the shortest possible time.

---

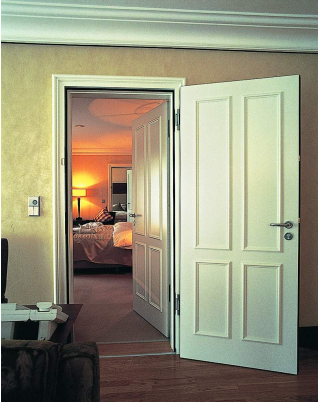

## Premium doors for a hotel with tradition and style

We realised an extensive door project for the renowned 5-star Dorint Maison Messmer hotel in Baden-Baden within an extremely compact time period of only six weeks. Our scope of delivery included **146 room entrance doors**, **146 bathroom doors**, **35 suite doors**, **42 side doors** and miscellaneous special doors.

All doors were manufactured and delivered as **high-speed special doors** - with high quality and in duc time. Highlights include **corridor-room doors as soundproof doors (Rw,P = 42 dB)**, **highly sound-insulating double doors between suites (Rw,P = 52 dB)** and elegant **surfaces in exclusive high-glass painting**. The **profiling and design** were carried out in accordance with the customer's specifications. High-grade steel fittings and **hinges** as well as **passage steel frames in the corridors** round off the high-quality furnishing concept.
