# Hôtel de la Cigogne in Saint Ursanne

---

Category: Lodging establishments

Year: 2024

Type: Restoration

Brand: Kermi

---

Located in the heart of the medieval town of Saint-Ursanne, the 16th century building that houses the Hôtel de la Cigogne is being given a new lease of life. Following the complete renovation of the interior, the hotel will reopen its doors in May 2024.

---

## About the project

It offers luxurious suites in a refined décor that junction historical charm with modern facilities. It has 12 bright rooms decorated with fine materials. The arches set within the walls adorn the rooms and are cleverly integrated into the room design. Elegantly staged and perfectly fitted into the recessed wall arches, the classy shower cubicles from the enterprise Kermi Sanitär adorn the rooms to perfection. The minimalist fittings from the MENA series are lacquered in an elegant grey. The shower enclosure is kept simple, with just a small handle hole in the glass.
