Stay Kooook Bern City Hotel

Category: Lodging establishments

Year: 2023

Type: New building

Brand: Kermi

Stay Kooook is the multi-award-winning in-house development of the SV Hotel categories. Since January 2023, the "Stay Kooook Bern City" has been welcoming guests in the heart of Bern's city center.

About the project

The modern concept and relieved stress atmosphere have moved into a historic building in Bern's old town, parts of which are listed. The old staircase, the original radiators, the stucco ceiling and wall paneling - all of this has been carefully restored and now blends in beautifully with the modern, minimalist yet comfortable living style of the Stay Kooook brand.

The well thought-out design of the 85 rooms is perfectly complemented by Kermi products. Modern, high-quality Kermi shower enclosures in elegant black Soft from the MENA series underline the design concept. And thanks to polished plate glass on both the outside and inside of the shower cubicles, they are not only another eye-catcher, but also offer guests a special kind of showering pleasure.
